DASHBOARD

The screenshot displays the 'Inventory System' dashboard. On the left is a purple sidebar with navigation links: Dashboard, Products, Sales, Add New Product, User Management, Report, Logout, Inbox, and User Manual. The 'Dashboard' link is highlighted with a blue arrow. The main content area has a light gray background and features five white summary cards: 'Stock In' (0), 'Stock Out' (0), 'Popular Product' (N/A), 'Total Sales' (₱0.00), and 'Expired' (0). A blue arrow points from a text box to the 'Dashboard' link. The text box contains the following information:

After logging in, users will be directed to the Dashboard, which provides a real-time overview of the inventory status. It allows users to monitor total sales, view in-stock and out-of-stock.

Add/Update Product

The user can manually input the data of the product (includes barcode). Afterwards, when the product data is saved in the database, it will automatically fill up the needed information of the product when scanned with barcode.

Here the user can enter/update the product data with barcode or manual typing in each area.

When the user is done entering all the needed product data, they can then click the "Add/Update Product" to save it on the database.

LOGOUT

The screenshot displays the 'Inventory System' interface. On the left is a purple sidebar with navigation buttons: Dashboard, Products, Sales, Add New Product, User Management, Report, Logout, Inbox, and User Manual. A blue arrow points to the 'Logout' button. The main area shows an 'Inventory Report' with filters for 'Start Date' and 'End Date', and a 'Filter by Date' button. Below these are summary statistics: 'Total Stock: 151', 'Total Sales: \$441.0', and 'Total Profit: 77.0'. A table lists products with columns for Product Name, Category, Barcode, Quantity, and Date. A red 'Logout' dialog box is open in the center, displaying the text 'You are about to log out.' and 'Do you want to continue?'. It has 'OK' and 'Cancel' buttons. A blue arrow points to the 'OK' button. A light blue callout box on the right contains the text: 'After using the user is done using the inventory management system, the user can now logout by clicking the "Logout" button and then click "OK".'
